Megadeth
Morgana Lefay
Mortal Sin
Onslught
Prestige
Soulbreach

Stormage
Susperia

Viking Metal

Doomsword

Okay, I've looked all over the internet and I think my list is pretty complete?

If I got some in the wrong category, help me out and tell me where they should go.

If I didn't list some new 2007 CD you bought, tell me what they are.

completely off topic here wz... look at your text above... something is wrong with the text... i have been noticing this "feature" since the new forum was installed.

heavy metal

see what the text line above did?
